
A
H_2(Vin), bin 1 $p = 0.00357$
empirical
simulated
data quantile
theoretical quantile
B
density
data quantile
C
H_2(Vin), bin 17, $p = 0.0516$
data quantile
theoretical quantile
D
density
data quantile
E
H_2(Vin, Yor), bin 1, $p = 0.833$
data quantile
theoretical quantile
F
density
data quantile
G
H_2(Vin, Yor), bin 17,, $p = 0.923$
data quantile
theoretical quantile
H
density
data quantile
I
H_2(Yor), bin 1, $p = 0.00102$
data quantile
theoretical quantile
J
density
data quantile
K
H_2(Yor), bin 17, $p = 0.573$
data quantile
theoretical quantile
L
density
data quantile
M
simulated
empirical
density
p-value
