
A
H_2(Den), bin 1, $p = 1.53e\text{-}13$
empirical
simulated
data quantile
theoretical quantile
B
density
data quantile
C
H_2(Den), bin 16, $p = 0.000205$
data quantile
theoretical quantile
D
density
data quantile
E
H_2(Alt), bin 1, $p = 0.0339$
data quantile
theoretical quantile
F
density
data quantile
G
H_2(Alt), bin 16, $p = 0.113$
data quantile
theoretical quantile
H
density
data quantile
I
H_2(Den, Alt), bin 1, $p = 0.568$
data quantile
theoretical quantile
J
density
data quantile
K
H_2(Alt, Yor), bin 1, $p = 0.419$
data quantile
theoretical quantile
L
density
data quantile
M
H_2(Yor), bin 16, $p = 0.348$
data quantile
theoretical quantile
N
density
data quantile
O
empirical
simulated
density
p-value
